Anthony

Thank you for the communication. I agree I "had" already determined the facts on what I had been told.

Having spoken with you and Arthur I have a different perspective and I will be talking to "others" before writing you an apology, but please be aware that it may be after our BMAF meeting in 5th November, as we are just not able to get our executive together for a meeting at the present.

It is not necessary to write me as I had said as Arthur has given me a great deal more than I had before, and corroborates some of the points that you made.

So from BMAF position this has to be dealt with.

Regards

Winston Thomas
